

Keycode/Combination Listing in MarcEdit 7

Background

As part of the ongoing development and planning related to functionality enhancements, accessibility enhancements, and workflow enhancements – the current keymapping for shortcut key combinations and ALT+<Keycode> combinations are being evaluated. The goal for MarcEdit 7 is to provide at least one keycode pathway to all menu functions, and in some cases two (both an ALT+<keycode> and Shortcut key combinations). This report documents both current and proposed keycode combinations. For this report, current keycode combinations will be represented without styling, proposed keycode combinations as *italicized green text*, and modified combinations as **bold red text**. Deleted keycode combinations will be represented as **bold, underlined Blue text**.

Main MarcEdit Window

Global Keycodes

Function Name	ALT+Keycode	Shortcut Keycode
MARC Tools		<i>CTRL+T</i>
MarcBreaker		<i>CTRL+B</i>
MarcMaker		<i>CTRL+M</i>
MarcEditor		<i>CTRL+E</i>
What would you like to do		CTRL+K

File Menu

Function Name	ALT+Keycode	Shortcut Keycode
---------------	-------------	------------------

The File Menu has been removed from MarcEdit 7. Items previously found in the File Menu have been moved into other menus, or have been registered as global shortcut keys on the Main Window
